If you already use internet banking or social media then you already make use of cloud technology. You can now take this a step further and have the ability to access and update your accounts and finances anytime, anywhere via the internet.

What is cloud accounting?

Cloud accounting is software which is hosted in the "cloud" and can be accessed from any place with a stable internet connection. There is no need for new hardware or complex installations; it can be accessed from your laptop, tablet or phone.

How can MHA Moore and Smalley help?

The MHA Moore and Smalley Business Services Team can be an integral part of your business, when you move your bookkeeping to the cloud. We can be on hand to offer any advice based on the same real time information that you have access to. We can also tailor training specifically for you and your team on how to use it, including real life examples of how other businesses are embracing the new technology.

With MHA Moore and Smalley and QuickBooks online we can show you how to best make use of the software, so that you can access the information you need in order to keep track of your income,

expenses and cash flow.

What are the advantages of mitigating to the cloud?

- Access live, real time information from any location, by any user, regardless of device.
- Multiple users can have access at the same time, including the Trustees and Treasurers.
- Automatic bank feeds that import daily to QuickBooks.
- Bank level encryption keeps your data safe.
- Easily transfer your existing sage data so you can continue where you left off.
- Simple bookkeeping that can produce powerful reports for your organisation.
- Access is also available for your accountants.
- Links to hundreds of other cloud based software packages to facilitate

- Job Management
- Stock Control
- Purchase Order Forecasting
- Direct Feeds from Payroll

We welcome the opportunity to help you find solutions to your challenges and explore business opportunities.
