

## Brabners and MHA Moore and Smalley Charity Seminar

Preston Tuesday 24 September 2019

Most of us prefer to shy away from conflict when we can. But what if that wasn't in the best interests of your charity?

Come and join Brabners and MHA Moore and Smalley for a seminar kindly hosted by Recycling Lives Charity, to learn how to embrace, manage and mitigate conflict within your charity, whether it's running your trading subsidiary company in the right way, addressing any issues between your board and senior executive team, providing a diversity of views to facilitate the best possible decision-making, or making sure you protect your charity's contractual rights, whether in providing or buying goods or services.

The Recycling Lives Charity changes lives through programmes to support the homeless, reduce re-offending and deliver food to support small charities and community groups - all creating significant social values for communities.

### Event Agenda

11:00am - Registration

11.15am - Introduction from Recycling Lives Charity and presentations from our panel of speakers

1.00pm - Following the end of the presentations, delegates are welcome to take lunch in the Recycling Lives Cafe at the venue and to join a short guided tour of its residential premises.
